SUMMARY

Flutter Developer with hands-on experience building scalable cross-platform mobile applications using Flutter and Dart. Skilled in Firebase, Supabase, REST APIs, Bloc/Cubit state management, and clean architecture principles. Experienced in developing SaaS platforms, real-time systems, and video conferencing solutions with a strong focus on performance, maintainability, and user experience.

TECHNICAL SKILLS

Languages: Dart, Python, C++, C, Java

Frameworks & Tools: Flutter, Firebase, Supabase, LiveKit, REST APIs, Git, GitHub

Architecture & State Management: Bloc/Cubit, Clean Architecture, MVVM

Databases: PostgreSQL, Firestore, Realtime Database

Other Skills: UI/UX Implementation, Authentication Systems, SaaS Architecture, Multi-tenancy

EDUCATION

Delta Technological University

Bachelor of Software Engineering – Grade: Very Good

Sep 2020 – Jul 2024

Menoufia, Egypt

EXPERIENCE

ITC Company

Mobile Application Development Scholarship

Aug 2024 – Feb 2025

Tanta, Egypt

- Developed and maintained cross-platform mobile applications using Flutter and Dart.
- Implemented scalable state management solutions and optimized application performance.
- Collaborated with teams to build GPS-based and Firebase-integrated applications.
- Applied Agile methodologies and participated in the full mobile app development lifecycle.

Udemy

Complete Flutter And Dart Development Course

May 2023 – Jun 2023

Online

- Completed advanced training in Flutter and Dart, including Firebase integration, asynchronous programming, and state management.

PROJECTS

EduConnect LMS (Video Conference System) | Flutter, Supabase, LiveKit, LTI 1.3

Mar 2026 – Present

- Developed a scalable video conferencing platform for Saudi universities integrated with Blackboard using the LTI 1.3 Advantage standard.
- Implemented secure Single Sign-On (SSO) using OIDC and RSA-256 signature verification.
- Integrated LiveKit for low-latency real-time video communication with whiteboards, breakout rooms, and live polling features.
- Built automated attendance tracking and session archiving systems using Supabase.
- Developed a real-time classroom management dashboard for instructors to manage participants and assessments.

Harafi App | Flutter, Supabase, Dart

May 2026 – Present

- Developed a marketplace platform connecting technicians with clients for home maintenance services.
- Built a secure onboarding and identity verification system for technicians.

- Integrated Supabase authentication, PostgreSQL database management, and cloud storage solutions.
- Implemented order lifecycle management, location-based service filtering, and dynamic pricing systems.

Ahki App | *Flutter, Firebase, Dart*

Feb 2026 – Apr 2026

- Developed an anonymous social platform that enables users to share thoughts and interact securely.
- Implemented content reporting and moderation features to improve community safety.
- Designed and implemented an engaging and responsive UI/UX experience.
- Integrated Firebase Authentication and real-time database functionality.

Nursera App | *Flutter, Firebase, SaaS, Multi-tenancy*

Apr 2026 – Jun 2026

- Developed a multi-tenant SaaS platform for nursery management with separate portals for owners, staff, accountants, and parents.
- Implemented Role-Based Access Control (RBAC) using Firebase Custom Claims and Firestore security rules.
- Built real-time attendance tracking and automated reporting systems.
- Integrated subscription billing and referral management systems.
- Applied Clean Architecture principles and optimized app performance across multiple user roles.

Ninja Box App (Graduation Project) | *Flutter, Firebase, Embedded Systems*

May 2024 – Jul 2024

- Developed a smart safe mobile application with real-time GPS tracking and advanced security features.
- Designed intuitive UI/UX experiences focused on usability and performance.
- Conducted user testing sessions and improved the application based on collected feedback.

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Communication Skills
- Time Management
- Attention to Detail
- Agile Development
